

TFA Leadership Development Program

What We Do.

Teach for Armenia educational foundation offers a two-year Leadership Development Program aimed at providing access to an excellent education for all children across the country. Through teacher leadership, we help to ensure that educational excellence and opportunity reaches every child across Armenia.

How We Do.

We recruit the most committed and exceptional candidates from Armenia and the Diaspora. They are trained to become leaders and teachers and placed in underserved schools and communities as Teach for Armenia Teacher Leaders. We invest heavily in supporting our Teacher-leaders during their two-year commitment so that they succeed as teachers and mentors to their students and role models in their communities.

Upon successful completion of our initial Summer Institute training program, Teacher-leaders are then placed in communities based on their educational and professional experiences and according to the needs of our partner schools. Teacher-leaders will live and work full-time as teachers in public schools throughout their two-year commitment. Fellows also lead Community Development Projects in their local areas, working with their neighbors to identify the needs of the community, create business opportunities, and boost the local infrastructure.

The Initial Requirements.
